Background

Due to COVID-19, the client would like to provide an elegant, refreshing, and safe way of sterilization.

New setup

No real store

THE HISTORY OF THE LORA

The Lora is the story of a relationship between a couple, Lora and Philip. A relationship based on mutual inspiration while embracing the diversity of their respective backgrounds and mentalities. The authenticity of this relationship was carried into what in 2020 became The Lora. The vision was to create a niche in the lifestyle industry based on a dualistic approach that combined the two completely different styles. At The Lora, we believe in unifying human relations across physical and cultural borders by defining a visionary lifestyle based on compassion, creativity, and the freedom to aim high - we make premium aromatic.

CLIENT REQUIREMENTS

CLIENT REQUIREMENTS

FUNCTIONAL

1. Customers can buy the products through the system.

2. Customer must be registered for membership before the shopping process.

 Customer must log in with email and authentication with a password.

4. Customers can search for the product with the product name or packaging sizes.

5. Customer must finish the shopping process in the shopping cart.

6. Inventory update by using admin API (CRUD).
